

MIKE & LOIS RADCLIFFE

Mike and Lois are the Lead Pastors of Destiny Church, a contemporary church in Bristol they pioneered in 1993 formerly known as The Ark Christian Centre.

With over 20 years in leadership and ministry, Mike and Lois not only pastor this dynamic and lively church but also travel extensively at home and abroad sharing their relevant life-application teaching and leading worship.

Mike's down-to-earth, direct and humorous style challenges and motivates people to fulfil their

potential in life. His passion is to see people living life at the highest level and he loves to see this encouraged in all areas of church life including through speaking to leadership and teams.

Lois's passion for worship enables her to lead the Creative Ministries team at Destiny as well as impact and train other worship teams. Her desire is to encourage and lead people to "touch heaven and change earth" through worship as well as concentrating on motivating women to be all that they have been created to be.

Mike is an author and has published his debut book entitled "How to be God's who by knowing God's what, where, when and why" - a book on vision endorsed by several well-known international pastors/speakers. He is also an accomplished musician and has played keyboards for several well-known Christian artistes and worship leaders. Over the last few years he has arranged and recorded professional worship backing tracks for Destiny which he is now making available to the greater church through worshipbackingtracks.com.

Mike and Lois have a daughter called Gemma and live in the South West of England.
